

Psalm 12 - Studying the Psalms

Name _____ Date _____

Verses 1-4

What did David say happened to the faithful?

How do the people who are left speak?

What does David want the Lord to do about it?

Who do the proud think is in charge over their mouths?

Verses 5-8

What two things cause the Lord to arise?

How pure are the words of the Lord?

Who will keep His words pure?

What is wrong with David's situation. (Verse 8)

Be a Godly Influence

In most cases, if not all, God has used a Godly person to influence your life. We can look around us today and witness for ourselves the depravity of society in television, movies, magazines, news, etc. The good old days of modesty and decency seem to be long gone, but we are not lost yet.

Think of someone who was a Godly influence on you.

What is this person's name?

What did this person do that impressed you?

How did you see this person have a relationship with God?

How much of this person's life was shared with you?

Think of someone to whom you can be a God influence.

What is this person's name?

What have you done that impressed this person?

How can you show this person your relationship with God?

How can you share your life with this person?
